

# MODEL GW

## Valve Bagging Equipment

The Taylor GW Series Auger Packer is excellent for bagging a wide range of products: seeds, resins, plastics, sand, rubber granulars, fertilizers and abrasives. Practical design makes the GW Series transportable and adaptable to existing construction. To operate, place bag on spout and pull gate handle to start—fill shuts off automatically.

### Economical Valve Bagging

- Coarse powders
- Granular products
- 20 lb to 110 lb capacity
- Up to 3 bags per minute
