

Magnum Systems, Inc. is looking for ENERGETIC team members to fill our open position for an ASSEMBLY TECHNICIAN at our location in Parsons, Kansas.

Please send resumes referencing this position to info@magnumsystems.com.

ABOUT US

Magnum Systems was formed in 2001, but is built on two quality brands Smoot and Taylor Products, both dating back to the 60s. Smoot was founded in 1960 in Kansas City, KS with a focus on manufacturing pneumatic conveying systems, components, and our prized rotary airlock valves to serve all industries handling dry bulk solids. Taylor Products was founded in 1969 in Parsons, KS initially providing bagging and packaging equipment to the seed industry, and our offerings have expanded in bagging, packaging, and container handling through integrated technology like robotic automation.

Our wide range of systems and customers offer plenty of opportunities to put your skills to the test and learn a few new ones. Our managers know great talent when they see it, and we invest in what makes Magnum Systems a leader in our field – people like you.

JOIN OUR TEAM

If you're looking to find a place where the people are passionate about what they do and work on a team that is looking toward the future, Magnum Systems is the place for you. Roll up your sleeves and work alongside the best in our industry. We offer quality benefits:

- Health, Dental, Disability, and Life Insurance
- Pre-Tax Savings Program
- Paid Time Off
- 401K
- Profit Sharing Program

POSITION DESCRIPTION

The Assembly Technician is responsible for assembling component parts into a complete and operational product based upon customer requirements and production schedule.

DUTIES & RESPONSIBILITIES

- Perform small component assembly, general machine assembly, gasket making, and other miscellaneous assembly duties.
- Perform complete machine construction including final inspection and checkout.
- Read and understand work orders and stock production needs. Review and prioritize work orders and stock production needs to insure that products are completed in a timely manner.
- Identify and obtain required component parts for each work order or stock production assembly.
- Inspect parts before and after assembly.
- Use various hand and power tools to efficiently assemble produced component parts into final product.
- Other duties and responsibilities as assigned, including special projects.

THE PEOPLE, PARTS, AND SYSTEMS THAT KEEP THE LINE MOVING.
